Investor Presentation

Forward-Looking Statements

This presentation may contain or incorporate by reference forward-looking statements regarding DCP Midstream, LP (the "Partnership" or "DCP") and its affiliates, including outlook, guidance, projections, estimates, forecasts, plans, and objectives. All statements in this presentation, other than statements of historical fact, are forward-looking statements and are typically identified by words such as "target," "outlook," "guidance," "may," "could," "will," "should," "intend," "assume," "project," "believe," "predict," "anticipate," "expect," "scheduled," "estimate," "budget," "optionality," "potential," "plan," "forecast," and other similar words and expressions. Although management believes that expectations reflected in such forward-looking statements are based on reasonable assumptions, no assurance can be given that such expectations will prove to be correct due to risks, uncertainties, and assumptions that are difficult to predict and that may be beyond our control. If any of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, the Partnership's actual results may vary materially from what management anticipated, expected, projected, estimated, forecasted, planned, or intended. You are cautioned not to place undue reliance on any forward-looking statements.

Investors are encouraged to consider closely the risks and uncertainties disclosed in the Partnership's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission, which risks and uncertainties include, but are not limited to, the ongoing global economic impacts of the COVID-19 pandemic and the recent pricing and supply actions by certain oil exporting countries, the resulting supply of, demand for, and price of oil, natural gas, NGLs, and related products and services, the duration of the foregoing impacts, and the time period for any recovery in commodity prices and demand. These risks and uncertainties could cause our actual results to differ materially from the forward-looking statements in this presentation, which may include, but are not limited to, our expectations on outlook, guidance, and sensitivities, our 2020 mitigating actions and options including distribution, capital, and cost reductions, our sources and uses of liquidity and sufficiency of financial resources, our projected in-service dates for growth projects, and our construction costs or capital expenditures in relation to estimated or budgeted amounts. Furthermore, in addition to causing our actual results to differ, such risks and uncertainties may cause our assumptions and intentions to change at any time and without notice, and any such changes may also cause our actual results to differ materially from the forward-looking statements in this presentation.

The Partnership undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Information contained in this presentation speaks only as of the date hereof unless otherwise expressed, is unaudited, and is subject to change.

dcp Midstream.

Note: On August 6, 2020, DCP reissued 2020 financial guidance consisting of forecasted Adjusted EBITDA and DCF ranges originally announced on February 11, 2020

(1) Adjusted EBITDA, distributable cash flow, and free cash flow are Non-GAAP financial measures

(2) Distributable cash flow is reduced by cumulative cash distributions earned by the Preferred Units

(3) Free Cash Flow = DCF less distributions to limited partners and the general partner, less distributions to noncontrolling interests, and less expansion capital expenditures and contributions to equity method investments.

(4) Bank leverage ratio calculation = Bank debt (excludes $550 million Jr. Subordinated notes which are treated as equity) less cash divided by Adjusted EBITDA, plus certain capital project EBITDA credits

(5) Sensitivities are relevant to margin impacts

2H Assumptions and Outlook

Logistics & Marketing
- Relatively flat NGL volumes through Q3, with potential declines in Q4, due to a forecasted increase in ethane rejection
- Incremental earnings from newly in-service Cheyenne Connector beginning Q3

Gathering & Processing
- 2H G&P volumes expected to be slightly higher than Q2
- All shut in volumes back online during Q3, partially offsetting natural declines
- Latham 2 offload online in Q4

Costs & Capital[1]
- Committed to a minimum of $120 million YoY cost reduction, with costs back-loaded to 2H
- Sustaining capital heavily back-loaded to 2H; expected to exceed May outlook of ~$60 million
- Growth capital expected to be significantly lower; trending toward high end of $150 - $190 million range

Potential 2H Tailwinds
- Potential upside from continued ethane recovery
- Permian and DJ Basin DUC inventory of 3,000+ and 700+ respectively, mitigating natural declines
- Incremental rigs if commodity pricing strengthens

Potential 2H Headwinds
- Continuation of lower demand as a result of COVID-19 pandemic
- Sustained lower commodity prices
- Producer capex declines create natural production declines
- Political and regulatory risk

Strong 1H foundation balancing continued uncertainty in 2H industry outlook

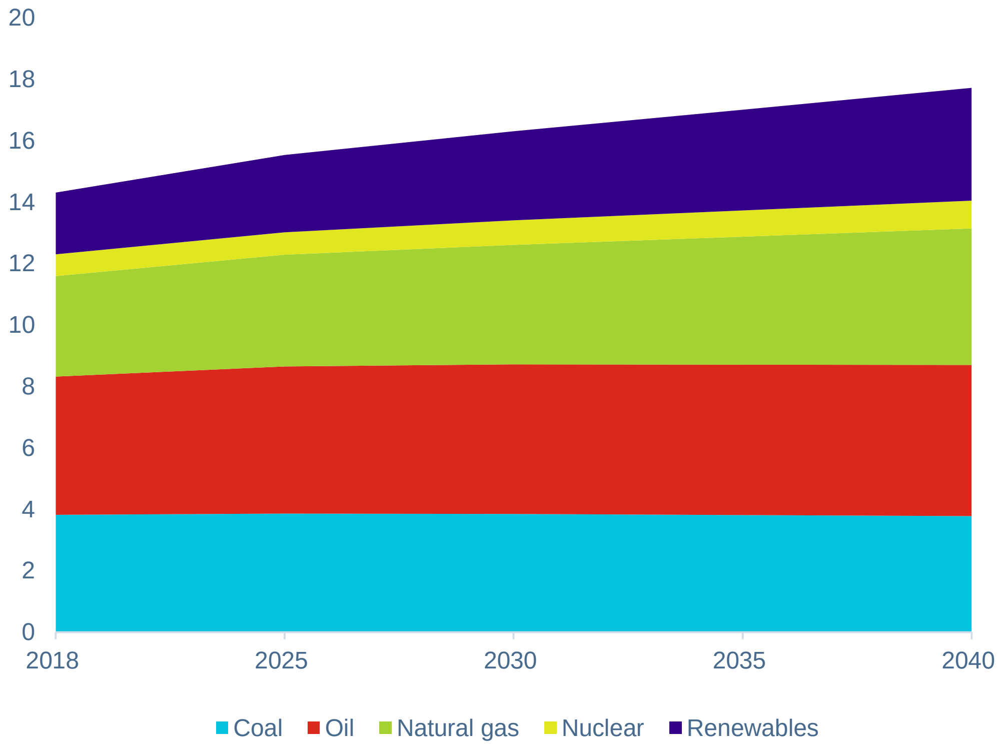
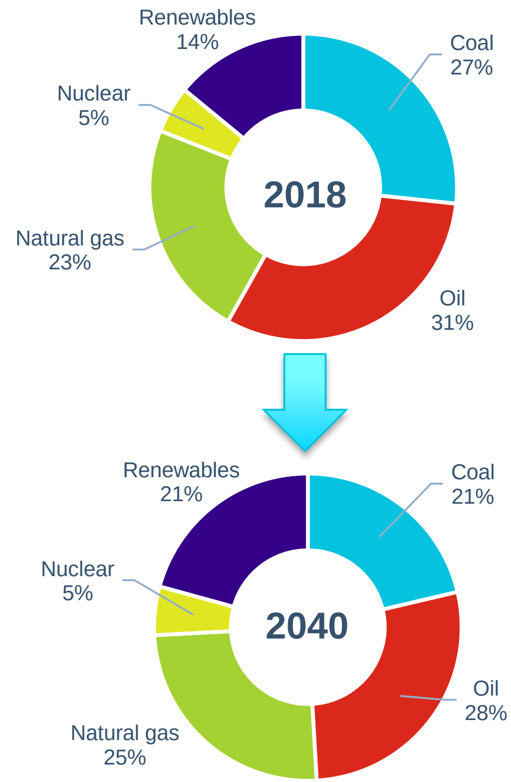
Long-Term Global Demand for Natural Gas

World Primary Energy Demand by Fuel (BTOE)



Share by Fuel



"Shale output from the United States is set to stay higher for longer than previously projected, reshaping global markets, trade flows and security. In the Stated Policies Scenario, annual US production growth slows from the breakneck pace seen in recent years, but the United States still accounts for 85% of the increase in global oil production to 2030, and for 30% of the increase in gas."

Hydrocarbons continue to fuel our global society for decades, with increased demand for natural gas

Highlights from the Inaugural DCP Midstream Sustainability Report

DCP is committed to safety, social responsibility, diversity, environmental leadership, operational excellence, and ethical business practices to ensure the decisions we make today are also the right decisions for the future.

Our Purpose & Vision

Our Purpose: ***Building Connections to Enable Better Lives***

Our Vision: ***To be the safest, most reliable, low-cost midstream service provider***

Our purpose is the lens through which we assess every decision, every action, and every strategy. From creating the feedstock used for thousands of products and warming our homes, to fueling our transportation systems and providing reliable and affordable energy access, we play a critical role in the energy value chain that drives our society. To achieve our purpose, we must sustainably execute our vision.

Midstream EHS Leader

The safety of our employees, contractors, and communities is top of mind in everything we do, every day, and is prioritized at all levels of the organization as our top value.

DCP 2.0 Transformation

We are leading the industry in innovation and digital adoption with a focus on transformation through people, process, and technology. Highlights include:

Integrated Collaboration Center (ICC)

Enhancing our digitized central nervous system which processes seven billion data points daily to fully optimize our operations

Remote Operations at 20 Facilities

Resulting in $13MM of margin uplift and volume, reliability, and recovery improvements at 19 facilities

DCP Technology Ventures

Working with start-ups to help develop groundbreaking energy technologies that improve safety, efficiency, and sustainability

Decision Support System (DSS)

Utilizing software that allows the company's real-time operational statistics to be available to every employee

Environmental Management

We recognize our critical responsibility to provide safe, affordable, reliable energy, while reducing our contribution to, and mitigating the impacts of climate change. In addition to strong environmental compliance and reporting, our efforts include:

- Monitoring our facilities with innovative technologies, such as infrared cameras to find and repairs leaks
- Participating in iPIPE, a nationally recognized coalition focused on leak detection and prevention
- Actively supporting nationwide Ecosystem Conservation Partnerships
- Supporting public awareness programs on pipeline safety
- Implementing regular emergency management training and asset drills

Culture & Community

We take pride in our dedicated efforts to create a safe, vibrant culture that enables and provides opportunities for our employees and communities to thrive.

- Established Cultural Hallmarks: Trust, Connect, Inspire, Solve, and Achieve
- Supporting a variety of internal employee groups, including: Young Professionals Network, DCP Veterans, the Leadership Development Network, and the Business Women's Network
- Formed Community Connections Committee to drive local engagement, directing over $75,000 to new, grassroots charitable efforts in 2019
- Raised and contributed over $1.4 million for nonprofit causes in 2019
- Top national corporate fundraiser for 2018 American Heart Association (AHA) Heart Walk, with nearly $9 million contributed to the AHA since 2007
- Recognized as a Forbes Best Midsize Employer for 2018 and 2019

Governance

The Board of Directors and our Executive Committee are committed to ethical business practices and effective risk and performance management.

- The Audit Committee, comprised of all independent directors, assists the Board in oversight of financial statements, audits, legal, and regulatory compliance
- Eliminated Incentive Distribution Rights in 2019, exemplifying our owners' support and positioning DCP and all stakeholders for long-term success
- Relevant to sustainability, we have identified our material issues, risks, and opportunities for our business and put a governance structure in place that includes an Sustainability Council. We have set ambitions for continuous transparency and accountability and we look forward to discussing our progress

The Logistics & Marketing segment is fee-based or fee-like and includes NGL and gas takeaway pipelines, marketing, trading, storage, and fractionators

NGL Takeaway	• **Sand Hills** provides NGL takeaway from the Permian and Eagle Ford to the Gulf Coast. This pipe is customer friendly, providing access to Sweeny, Mont Belvieu, and Corpus Christi. • **Southern Hills** provides NGL takeaway from the DJ Basin and the Midcontinent to Mont Belvieu. In Q4 2019, this pipe was extended into the DJ Basin via the White Cliffs conversion. • **Front Range** and **Texas Express** provide NGL takeaway from the DJ Basin. Their expansions to 260MBpd and 370MBpd, respectively, placed into service in Q2 of 2020.
Gas Takeaway	• **Gulf Coast Express** provides ~2.0 Bcf/d gas takeaway from the Permian to the Gulf Coast; placed into service Q3 2019. • **Guadalupe** provides 245 MMcf/d gas takeaway from the Permian. • **Cheyenne Connector** provides 600 MMcf/d gas takeaway from the DJ Basin to the Rockies Express Pipeline; placed into service in Q2 2020.
Gas & NGL Storage	• 12 Bcf **Spindletop** natural gas storage facility in SE Texas. • 8 MMBbls **Marysville** NGL storage facility in Michigan.
Fractionation	• Equity ownership of 140 MBpd of DJ Basin and Mont Belvieu **fractionation capacity.**

DJ Basin Fundamentals

Strength of the DJ

Life of Lease Contracts

Lifelong contracts forge strong producer and community relationships in rural, industry-friendly Weld County

Rural Producer Acreage

Dedicated acreage outside of municipalities operated by strong producers using best practices

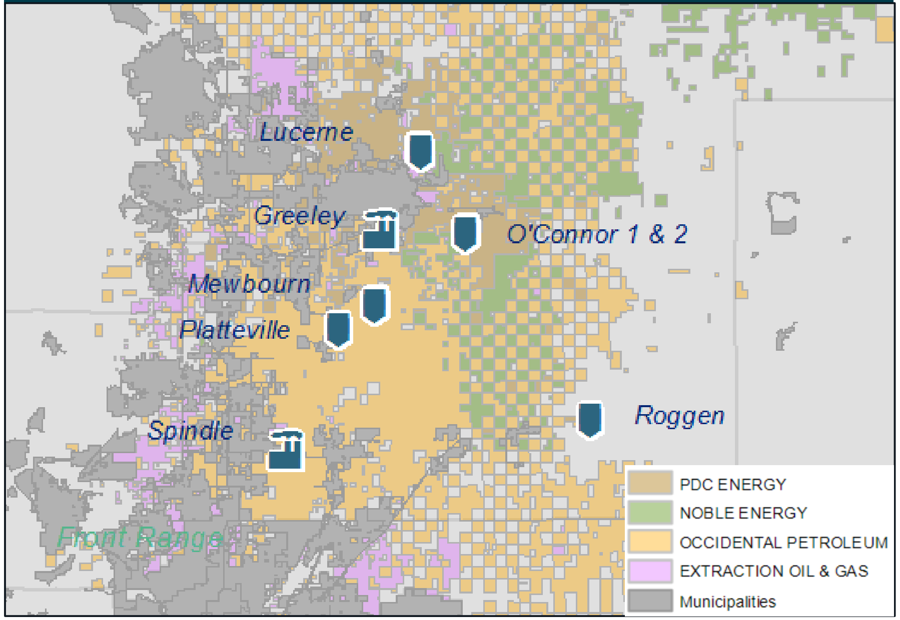
Dedicated Infrastructure

Midstream and downstream infrastructure built out to maximize takeaway

Producer Cost Savings

Producer LOE / BOE cost savings of 41% compared to Delaware basin(2)

Front Range Producer Acreage



Longevity of Reliable Production(1)

- Top four customers hold >850 permits in DJ Basin
- DCP currently has >300 DUCs on dedicated acreage
- 3 producer parties have secured frac crews for the remainder of 2020, expecting >35 new wells(2)

DCP forecasts steady volumes, competitive cost rates, and sufficient takeaway capacity

*** We define adjusted gross margin as total operating revenues including trading and marketing gains and losses, less purchases and related costs, and we define segment adjusted gross margin for each segment as total operating revenues for that segment including trading and marketing gains and losses less purchases and related costs for that segment. Our adjusted gross margin equals the sum of our segment adjusted gross margins. Adjusted gross margin and adjusted segment gross margin are primary performance measures used by management, as these measures represent the results of product sales and purchases, a key component of our operations. As an indicator of our operating performance, adjusted gross margin and adjusted segment gross margin should not be considered an alternative to, or more meaningful than, operating revenues, gross margin, segment gross margin, net income or loss, net income or loss attributable to partners, operating income, net cash provided by operating activities or any other measure of financial performance presented in accordance with GAAP. Our gross margin may not be comparable to a similarly titled measure of another company because other entities may not calculate gross margin in the same manner.*
